

Gerar Arévalo

Full-Stack Developer — Web · Mobile · Desktop

San Salvador, El Salvador · +503 7928-5317 · me@gcoder.dev · gcoder.dev

PROFILE

Full-stack developer with 3 years of experience and **9 products in production** for real companies. I built **Atto**, an electronic invoicing SaaS with 10,000+ tax documents issued; **.nova**, my own routing framework for desktop applications; and an **ERP** that migrated 1.5 million records without losing a single one. I build systems end to end — from the database to the user's screen.

EXPERIENCE

Full-Stack Developer · Importadoras Don Julio S.A. de C.V. Sep 2025 – Feb 2026

Gestión — Multi-branch ERP: web portal (Next.js 15), backend (NestJS 11, 23 modules) and a native desktop POS app (Tauri 2/Rust)

- Migrated **1.5M+ production records**; DTE e-invoicing with 7 document types: **10,000+ issued in 3 weeks**
- Optimized critical queries from **71s to 0.25s** with multi-level caching and raw SQL
- Multi-branch FIFO inventory, import containers with discrepancy detection, cash closures with email delivery, audit logging with geolocation, 8 roles with granular permissions
- Native thermal printing (TCP/IP and USB) from Rust; custom file-based routing framework (**.nova**)

Full-Stack Developer · Restaurant (private client) Jan 2026 – Feb 2026

Proyecto Café — Native desktop POS, invoicing daily in production

- Tauri 2/Rust + NestJS: tables by zone, **per-diner split checks** with individual DTE invoicing, thermal printing, real-time sales dashboard and fiscal Excel reports

Full-Stack Developer · Salex Corp Mar 2025 – Dec 2025

- **UrbaNext** — Multi-tenant real estate SaaS used by **5 companies**: Mapbox maps with real-time lot blueprints, **15+ subdivisions, 5,000+ lots, 2,400+ transactions**; WebSockets, JWT with 2FA
- **Atto** — Electronic invoicing (DTE) SaaS: **11 document types**, X.509 digital signature, direct integration with the Ministry of Finance; invoicing engine for other products, **10,000+ DTEs processed**
- **salex.sv** — Digital ecosystem: public site with live lot maps, WhatsApp Business chatbot, AI assistant (GPT-4/Gemini) and DTE invoicing
- **Atenea (atenea.sv)** — Lot subdivision microsite: lead capture, QR guest registration and an admin panel with email marketing (Tiptap)

Full-Stack Developer (consulting) · World Vision El Salvador Jun 2024 – Sep 2025

- **Tuchan Play** — Educational multiplayer mobile game (React Native/Expo): real-time matches with WebSockets, story mode with mini-games, **published on app stores**
- **Tuchan Ecosystem (tuchanla.com)** — Mobile app rewrite, admin portal, backend migration to NestJS/SQL Server and an institutional microsite with a drag & drop dashboard

SKILLS

Frontend	TypeScript, React 19, Next.js 15, React Native / Expo, Tailwind CSS 4, Framer Motion
Backend	Node.js, NestJS 11, Prisma, REST, WebSockets / Socket.IO, JWT / NextAuth
Databases	PostgreSQL, SQL Server, MongoDB, Redis — SQL optimization and large-scale migrations
Desktop	Tauri 2, Rust (native thermal printing, auto-updates)
DevOps	Docker / Docker Swarm, Traefik, Linux (Ubuntu Server), GitHub Actions, CI/CD, Vercel
Domain	Electronic invoicing — DTE (El Salvador), Mapbox, Cloudinary, OpenAI API, Stripe

INFRASTRUCTURE

- I run the **production VPS** (Ubuntu Server) hosting **7 of my applications** across 12+ Docker Swarm containers: Traefik with SSL/Let's Encrypt, automated daily PostgreSQL backups with dynamic container detection, and hardening with UFW, Fail2ban and key-only SSH authentication

EDUCATION & CERTIFICATIONS

Computer Science Engineering

Universidad Don Bosco, coursework completed (2020 – 2025)

Certifications: Next.js (Coderhouse, 2024) · Advanced React, JavaScript and CSS (Platzi, 2023)
